Archivo de Atletas Provisto por la Oficina de Asistencia Económica

Notes: The cohort is established by identifying by social security number the "first time full time" students that were admitted in the term identified as the cohort year. We define these students by using the variables available at the time the student is admitted. The final graduation rate does not consider the academic school, major or campus.

*IPEDS defines the time of graduation in the 150% of the normal time it takes to complete a degree.
